

JAK-200TC TREE SHEAR RECOMMENDED UNDER 6,5 METER (21,3 FT) CRANES (15-40 KNM)

The 200TC multifunction tree shear is equipped collector/accumulation unit and it makes smaller trees harvesting about twice efficient.

JAK-200TC COLLECTOR MAKES TREE CLEARING EFFICIENT

EVEN THIS MODEL IS EQUIPPED WITH A COLLECTOR IT CAN DELIMB, CUT, AND LOAD EASILY, THANKS TO ITS AGILE AND VERSATILE MOVEMENTS.

Smaller trees are possible to take so many than cutting capacity to give up. Just cut the first one and open and after that take the next one and next one etc. after the cutting capacity is full, just put the whole bush to the loading area or fall down direct to the trailer.

Before cutting, a standing tree can be delimbed by lifting with a crane. delimiting blades cut branches off. After delimiting jaws take tight hold of the trunk and the hydraulic cutting blades cut the tree neatly and efficiently. After cutting the top of the tree stay still vertical position if wanted and it is an easy to move to the loading area or fell tree direct to the trailer.

Base machines: small harvesters, small forwarders, example Alstor, Kinetic, Usewood, Logbullet, etc, forest trailers with under 6,5m (21,3 ft) crane and small excavators 1,5 – 3t (3306 – 6613 lbs).

JAK-200TC SPECIFICATIONS

Weight: 150 kg (330 lbs)
Cutting diameter: 200 mm/200 bar (7,8 in/2 900 psi)*
*hardwood like oak, beech, etc. about 25% less
Pressure booster: No
Recommended oil flow: 20-50 l/min (5,2-13,2 gal/min)
Recommended working pressure: 170 – 200 bar (2 465 – 2 900 psi)
Maximum working pressure: 210 bar (3 0145 psi)
Collector / Multi-tree handling: Yes
Recommended under 6,5-meter (21,3 ft) cranes (15-40 kNm)
Connecting has to be free-hanging with rotator
Warranty: 1 year

FOR SMALLER SIZE FOREST CRANES

JAK-200TC TREE SHEAR FEATURES

- NO NEED FOR EXTRA HYDRAULIC OR ELECTRIC
- NO HOSES OR ELECTRICAL WIRES TO RESTRICT GRAPPLE ROTATOR
- EASY AND FAST CONNECTING
- CUTTING, LOADING, DELIMITING THE TREE
- COLLECTOR BOOSTS PRODUCTIVITY
- GUILLOTINE AND TILT-UNIT IS POSSIBLE TO LOCK IN THE LOADING POSITION
- ALSO WORKS AS A LOADING GRAPPLE
- MADE WITH HARDOX STEEL
